

Why would I choose to support children and adolescents in the programmes of MARIA Association ?

- because you can help us eradicate the problems that affect the lives and dignity *of children and adolescents who are deprived, poor, lonely, sick, disabled, orphans or in critical situations,*
- because you can help us provide a normal life and access to rehabilitation, education, recreation and social integration services of *children with disabilities.*

MARIA Association is a humanitarian organization founded in 2007, working in partnership since 1999 with one of the largest children's charity **HCPT - The Pilgrimage Trust for Disabled Children in the UK**, with **Caritas Bucharest** member of one of the most important global humanitarian network *Caritas Internationalis*, with other similar organizations and educational institutions such as the School for the **Visually Impaired Bucharest**. A number of about **120 children and adolescents** has benefited of our support so far.
